

Compliance

Easily archive communications to comply with industry regulations and internal governance.

MERGE1 HELPS YOU COMPLY WITH MESSAGING REGULATIONS USING YOUR EXISTING EMAIL ARCHIVE

THE CHALLENGE:

Your Industry's Regulations or Internal Policies Mandate that You Archive Communications

If you operate in a regulated sector, such as Financial Services, Healthcare, Pharmaceuticals, Energy, etc., industry regulations may oblige you to archive your workforce's business communications. For example, communication and record keeping rules set by the SEC, FDA, HIPAA and others require businesses to track and store interactions between employees, partners, and clients.

THE PROBLEM:

Most Solutions Require You to Send Your Data to a 3rd Party Archive

How do you retain and supervise information in order to be in compliance with industry regulations? Most data compliance solutions require sending your workforce's critical, sensitive communications to a third party data store. Moreover, these services require expensive recurring monthly fees for the maintenance of a second archive, in addition to your existing email archive.

THE SOLUTION:

Merge1 Facilitates Compliance By Leveraging Your Existing Infrastructure

Since 2005, Merge1 by Globanet has helped firms in numerous regulated industries quickly and easily gain compliance with messaging regulations. Merge1 facilitates compliance by using your current archiving infrastructure. Merge1 extends your existing email archive to capture various communications channels, including social media, enterprise social, IM, text/mobile, financial messaging platforms and cloud-based file sharing tools. Once these messages are ingested into your archive, they can be retained according to regulatory mandates and internal governance rules.

Benefits of Merge1

- Avoid fines, penalties and other enforcement actions by regulatory bodies
- Mitigate risk involving internal investigations, external audits and lawsuits
- Reduce compliance related costs and recurring fees
- Capture all communications
- Maintain control over your data

Archive popular message content types including social media, IM, financial platforms, and cloud-based content.

Merge1 archives dozens of content types and can be customized to archive any content.

Archiving all your content with Merge1 helps you comply with industry regulations and enhances your eDiscovery results.

The ideal combination of power and simplicity:

- Archive agnostic
- Fully customizable
- On-prem or cloud
- Easy to set up and deploy

“Merge1 is an integral and invaluable tool. My team uses Merge1 to meet company needs for capturing EML/Reuters, Blackberry, Symphony and Bloomberg data. The product is intuitive, easy to set up, and I appreciate the personalized sale and support attention we receive. I would recommend Merge1 to anyone.”
